Hello ********, its your favorite reservist (ex)
Am away from the country ,safe and nobody from the corrupted police can harm me any more.
********** :
Video footage of police torture of a suspect by members of the series and violent unit Durban.
Video footage of dying robber shot by white police man from organized unit and they are waiting for him to dye before they call ambulance. present is you know who….the video is shocking and last a few minutes…
In that incidence I was ordered to pick up police cartages and place them in my pocket before hand them over to senior officer before any one comes in to inquire the shooting.
So all the allegation of police torture are true I WAS PRESENT.
Also when my robbery took place in 2000 and some senior officer was handed his police fire arm to me …the allegations were true. he freaked out and I grab his gun from his hand but I was ordered to change my statement later in frond of JACK MOOLER.
I have many more facts and incidents that prove that you know who is corrupted and influence his decisions by rich business man he is then controls arrests, investigations and prosecutor…….**********I
