Subject: police corruption and brutality in SAPS

<http://www.youtube.com/watch?v=IHXVIC7oPW4>

Hello there.

Should you be interested to investigate and “research” police brutality, EXECUTION style arrests, organised crime within the senior officers and the command structure of their operation contact me

I am an ex-policeman that left SA and has documented the torture, corruption, and racism within the force. After ten years of service, I have records of names, photos and events that will paint a story....
