Hi

Shocking stuff. How long ago did u flee. Were u threatened as well?  
Most importantly, are u going to come forward as a witness in any of these cases?

Is there any way of contacting u telephonically?

Finally after so many killings and crimes someone decided to do sm about it .I sent over 30 emails with hard core evidence to government officials, the human rights and so many of your people but no one could do anything because this network of mafia was to powerful within the system.

The reason why I fled SA was because those people were to dangerous and I knew too much of their dirty work. I have secretly captured photos and kept diaries of a lot of their executions since I was a reservist with the unit for 10 years .

Look at y tube under “ police torture in SA” I CAPTURED this in cato manor organize crime unit offices myself. Photos are from the actual policeman that had the “ shoot to kill” because they are blacks ,order from Johan himself.....In my first mission they shot a fugitive by the name of “ jaboulani “ in front of my eyes while he was lying down in the mad naked and in front of his wife and kids....I will never forget this. Then they placed a gun on him and said that he tried to shoot us. We were around 10-15 and he was by himself.... Most of them have secret files at their home computers with thousands of inhuman photos of their suspects after they are shot to death by them ,I have in my possession a lot of them because I was repairing their computers and was also called to the crime scenes and asked to take some photos for the “investigation” I am witness of cases were the head of the cato manor station that is now suspended ordered me to collect the spent cartridges (state police) while one suspect is bleeding to death and they are waiting for him to dye before ask for an ambulance. .Booyesen was there I have it on video is on you tube. The white investigators, reporters and so on will do nothing about it because they are nervous of the violent crimes performed mostly by Africans and they feel protected by the action of the unit itself. It was a standard procedure as well to share the recovered stolen goods and money among them self's. Once they tried to exchange dollars that had recovered from a robbery ,those people are a network of Mafia ...you should be very careful they are capable of plant evidence in your house and get a search warren in no time in order to arrest you shake y up and pass you the message ,this tactic I the one B.....was using . Once in the system you are in trouble..

You welcome ☺
