Subject: witnesses and documented police torture methods in S.AFRICA

Dear sir/madam

I recently repatriate to Greece after 20 years of living in Durban ,S.Africa.

For ten years a was a reservist for the s.african police unit serious & violent unit ,led by a racist white S.Africans man that run this unit as a Mafia organization. I witnessed horrific acts of torture of suspects and secretly documented them on videos or photos. I had to run away when my life was in danger from the same people I serve with and I am ready to talk to you about the conditions of terror and torture of suspects and how the police in Durban S.Africa obtained confession ,or suspects just die in custody.

I have video footages and records of events.

I did not wish to contact anyone within s.africa so perhaps someone from a Europe office or the USA can contact me.i tried to contact CNN but they do not seams to interested to help.

A.DANIKAS
