Subject: RE: Danikas ,hate letter arrived by Booysen

Dear Mr Danikas

On 8 July 2019 the prosecution team was called to a meeting by the National Director, Adv Batohi when we were told that a panel which was appointed to review our decision has submitted its report. The conclusion of the panel was that there was insufficient evidence to justify the racketeering authorisations. The dockets were returned to Adv Zungu, the new KZN DPP to decide whether there was a case in the individual dockets.

The team members were effectively removed from the case and since then, I have not been involved in the matter, since the racketeering charges were withdrawn.

I effectively have no authority to communicate on this matter as I am no longer the assigned prosecutor. I am sorry that you had to hear from the media about the withdrawal of the charges.

Adv Zungu has been copied on this mail and if you have any further enquiries you may get in touch with her.

Kind regards

Sello Maema

The National Director of Public Prosecutions (NDPP) at the National Prosecuting Authority.

Dear sir/Madam

I am contacting you again regarding the ongoing case of Cato manor unit and my participation as a witness for the prosecution authority in South Africa.

As I had no formal notification regarding the progress of the case by your office , I had to find out by the media that THE RACKETEERING CHARGES against J W Booysen and Cato manor officers are now dropped.

Your office should the least give me notice of such a decision as it is affecting the safety of my self and my family .

For the record on the 26th July ,a letter was received through a secret face book account ,sent by Booysen .

I have attached the contents of this letter .

Regards

A.Danikas
